PERUTUSAN MENTERI DI JABATAN PERDANA MENTERI

Salam Sejahtera dan Salam 1Malaysia.

Terlebih dahulu, saya mengucapkan terima kasih dan tahniah kepada Biro Pengaduan Awam (BPA) kerana berjaya menerbitkan Laporan Tahunan 2009. Tahun 2009 adalah istimewa kerana ianya merupakan tahun di mana kerajaan meningkatkan lagi usaha untuk mendorong penyampaian perkhidmatan mengikut komitmen, “Rakyat Didahulukan, Pencapaian Diutamakan,” di bawah Gagasan 1Malaysia yang diilhamkan oleh YAB Dato’ Sri Najib Tun Razak sebaik sahaja beliau mengambil alih tugas sebagai Perdana Menteri pada bulan April 2009. Laporan Tahunan BPA ini merumuskan usaha yang dibuat oleh BPA dan agensi-agensi lain untuk meningkatkan lagi mutu penyampaian perkhidmatan awam.

Dipandu oleh prinsip, “Rakyat Didahulukan,” kerajaan sememangnya adalah komited sepenuhnya dan amat serius terhadap usaha kita bersama untuk menjanakan pertumbuhan ekonomi, serta mempertingkatkan kualiti hidup dan kesejahteraan rakyat. Tahun 2009 menampakkan penglibatan secara lebih gigih dan intensif oleh para pegawai utama dari pelbagai kementerian dalam mengenal pasti dan menggubal rancangan penyampaian (delivery plans) untuk enam (6) Bidang Keberhasilan Utama Nasional atau “National Key Results Areas” (NKRAs) dan Bidang Keberhasilan Utama Kementerian atau “Ministerial Key Results Areas” (MKRAs) melalui penggunaan kaedah pengurusan pencapaian yang baru dan berkesan dalam bentuk makmal dan Petunjuk Prestasi Utama atau “Key Performance Indicators” (KPIs). Kesemua NKRA dan MKRA telah dikumpulkan menjadi Program Transformasi Kerajaan (PTK) yang disasarkan untuk dilancarkan pada bulan Januari 2010. Agensi-agensi kerajaan dijangka akan mengalih arus secara rapat dengan inisiatif-inisiatif baru ini dengan menukar cara memikir dan cara bekerja. Ketua-ketua agensi juga disarankan agar menanam minda baru di kalangan anggota-anggota agensi masing-masing untuk menghasilkan satu anjakan paradigma baru dalam perkhidmatan awam pada keseluruhannya.

Dalam konteks ini, pengurusan pengaduan awam sememangnya telah menjadi lebih relevan dan mencabar lagi. Aduan-aduan hendaklah dianggap sebagai satu nikmat oleh para penjawat awam oleh kerana ianya memberi peluang untuk agensi yang berkenaan untuk mendapat maklum balas daripada para pelanggan kita, iaitu rakyat Malaysia, dan menilai keberkesanan penyampaian perkhidmatan kita. Melalui pengurusan aduan secara efektif dan mesra, agensi-agensi kerajaan akan dapat menambah baik penyampaian perkhidmatan dan dengan demikian meningkatkan pencapaian KPI untuk setiap KRA. Ianya juga akan meningkatkan lagi imej perkhidmatan awam dalam persepsi rakyat yang menjadi sekian kritikal dan tegas oleh kerana mereka mahukan yang terbaik.

Oleh itu, peranan dan tanggungjawab BPA telah menjadi semakin penting semasa tahun 2009 dan akan menjadi lebih penting lagi pada tahun-tahun yang akan datang. BPA telah dan sedang beralih menjangkau menerima dan menyelesaikan aduan-aduan ke tahap analisa masalah-masalah pengurusan secara kritikal untuk mendapat input yang berkenaan bagi tujuan mengkaji semula dasar, prosedur dan amalan, selaras dengan komitmen “Pencapaian Diutamakan” untuk “Rakyat Didahulukan.”

Untuk menjadi lebih bersedia untuk cabaran yang lebih besar ini, BPA dalam tahun 2009 telah mengadakan beberapa seminar dan bengkel untuk memperkasakan lagi perspektif dan kemampuan kakitangan kami, manakala Program Menyelesaikan Aduan Segera Bersama Timbalan Menteri telah dilancarkan sebagai satu pendekatan mesra rakyat di akar umbi untuk mendapat maklum balas secara bersemuka. BPA adalah komited sepenuhnya untuk memainkan peranan yang positif bagi menjamin kejayaan PTK dan Gagasan 1Malaysia.

MESSAGE FROM MINISTER IN THE PRIME MINISTER'S DEPARTMENT

Warmest Greetings and Salam 1 Malaysia.

First of all, I would like to thank and congratulate the Public Complaints Bureau (PCB) for successfully publishing its 2009 Annual Report. 2009 was special because it was the year the government further stepped up efforts to drive the delivery of services in accordance with our commitment, "People First, Performance Now," under the 1Malaysia Spirit inspired by YAB Dato' Sri Najib Tun Razak after he assumed office as the Prime Minister in April 2009. This report summarises the efforts made by the PCB and the various agencies in 2009 to improve the quality of public service delivery.

Guided by the principle of "People First," the government is indeed totally committed and very serious about our concerted efforts to generate economic growth, to improve the quality of life and well being of the people. 2009 saw the intense and intensive involvement of key officers from various ministries in identifying and formulating delivery plans for six (6) National Key Results Areas (NKRAs) and Ministerial Key Results Areas (MKRAs), by using the new and effective performance management methodology of "Labs" and Key Performance Indicators (KPIs).

By the end of 2009, these NKRAs and MKRAs were then compiled into the Government Transformation Plan (GTP) which was targeted for launching in January 2010. Government agencies are expected to align themselves closely with these new initiatives by changing the way of thinking as well as the way of working. Heads of Agencies are expected to inculcate a "new mindset" among members of their respective services to bring about a new paradigm shift in the entire public service.

In this context, the management of public complaints has become even more relevant and challenging. Complaints should be seen as blessings by civil servants because they provide the opportunity for the agency concerned to get feedback from our clients, the Malaysian people, and to assess the effectiveness of our service delivery. Through effective and courteous management of complaints, government agencies can improve on their service delivery and hence the achievement of KPIs for each KRA. It will also enhance the image of the public service among the people who have now become more critical and assertive, and expect the best.

Therefore, the role and responsibility of the PCB have become increasingly more significant during 2009 and will be even more so in the coming years. The PCB has moved beyond receiving and resolving complaints to the critical analysis of management problems to provide useful inputs for review of policies, procedures and practices, in line with the commitment to "Performance Now" for "People First."

To be better prepared for this greater challenge, the PCB has, in 2009, carried out a number of seminars and workshops to further enhance our staff's perspective and capability, while the Instant Problem Solving Programme (IPSP) with the Deputy Minister was launched as a people-friendly approach on the ground to get direct face-to-face feedback. The PCB is fully committed to play its positive role in ensuring the success of the GTP and the 1Malaysia Concept.

KATA-KATA ALUAN KETUA SETIAUSAHA NEGARA

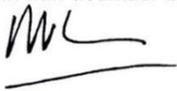

Assalamualaikum Warahmatullahi Wabarakatuh dan Salam 1 Malaysia.

Rakyat merupakan pelanggan utama dalam perkhidmatan awam. Justeru, semua agensi kerajaan perlu berusaha untuk memastikan para pelanggan berpuas hati dan gembira dengan perkhidmatan yang ditawarkan. Ia bukan tugas yang mudah serta memerlukan kreativiti dan inovasi yang berterusan untuk membolehkan penyampaian perkhidmatan dilaksanakan dengan pantas, tepat, mesra dan ditambah baik secara berterusan.

Demi memastikan kejayaan gagasan “1Malaysia, Rakyat Didahulukan, Pencapaian Diutamakan”, semua penjawat awam perlu mengambil langkah proaktif dan membudayakan amalan kerja cemerlang. Sikap pasif dan reaktif tidak menghasilkan kecemerlangan dan tidak memungkinkan perkhidmatan awam terus relevan pada pandangan rakyat. Sebaliknya, budaya kerja cemerlang serta keazaman yang kuat boleh menjadi pemangkin kepada usaha transformasi berterusan perkhidmatan awam.

Budaya kerja yang cemerlang hendaklah juga dizahirkan dalam keupayaan kita menyelesaikan permasalahan atau aduan yang dikemukakan oleh pelanggan secara berkesan. Walaupun sering kali persepsi terhadap aduan adalah negatif, namun ia merupakan semacam hadiah dan wahana terbaik dalam mengukur keberkesanan penyampaian perkhidmatan. Agensi yang kerap berurusan dengan pelanggan semestinya mempunyai potensi untuk menerima aduan, tetapi apa yang lebih penting ialah tindakan pembedahan dan pencegahan yang diambil dalam memastikan aduan yang sama tidak berulang. Budaya ketepatan perlu diterapkan dalam pengurusan aduan agar ekspektasi pelanggan dapat dipenuhi melalui penyelesaian aduan yang berkualiti.

Marilah bersama-sama kita membuka lembaran baru dalam melaksanakan amanah yang telah diberikan oleh Kerajaan dengan penuh tekun dan dedikasi demi kepentingan rakyat dan negara.

TAN SRI MOHD SIDEK BIN HASSAN

FOREWORD BY THE CHIEF SECRETARY TO THE GOVERNMENT OF MALAYSIA

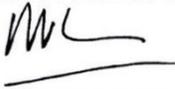

Assalamualaikum Warahmatullahi Wabarakatuh and Salam 1 Malaysia.

In the civil service, the citizens are our main customers. Therefore, all government agencies should strive to ensure each and every customer is satisfied and delighted with the services provided. This is not easy and it requires continuous creativity and innovation to achieve prompt, accurate, courteous and continuously improving service delivery.

For the successful implementation of the “1Malaysia, People First, Performance Now” concept, all civil servants must adopt a proactive approach to inculcate excellent work culture amongst ourselves. Passive and reactive attitudes will not bring about excellence or relevance from the citizens’ perspective. Instead, a strong commitment to excellence will certainly serve as a catalyst in our continuous effort to transform the civil service.

Similarly, excellent work culture should also be reflected in our ability to resolve public complaints or problems effectively. Although the general perception towards complaints is usually negative, nevertheless it is a gift and serves as a good measure of service delivery effectiveness. Agencies which have frequent interactions with the public have a high potential of receiving complaints. However, what matters most are the corrective and preventive actions taken to avoid recurrence of the complaints. Precision culture should also be adopted in the management of complaints to enable us to meet the people’s expectation regarding quality complaints resolution.

Let’s embark on a new chapter together with total dedication and diligence in carrying out the responsibilities entrusted upon us by the Government for the interest of the people and the nation.

TAN SRI MOHD SIDEK BIN HASSAN

KATA-KATA ALUAN KETUA PENGARAH

Salam Sejahtera dan Salam 1 Malaysia,

Saya mengucapkan terima kasih kepada semua penjawat awam kerana berjaya menunjukkan komitmen yang tinggi dalam pengurusan aduan awam terhadap agensi masing-masing. Usaha ini merupakan satu petanda baik dalam menyahut aspirasi Kerajaan ke arah merealisasikan Gagasan 1Malaysia, Rakyat Didahulukan, Pencapaian Diutamakan.

Peningkatan penerimaan aduan terhadap Perkhidmatan Awam sewajarnya dilihat sebagai sesuatu yang positif. Ekspektasi rakyat adalah sangat tinggi terhadap BPA dan sentiasa mengharapkan penyelesaian yang terbaik terhadap aduan mereka. Untuk merealisasikan hasrat tersebut, tanggungjawab agensi mencerminkan sikap keterbukaan setiap agensi kerajaan dalam menerima maklum balas dari orang awam. Pada masa yang sama, setiap respons atau maklum balas tersebut boleh dijadikan kayu ukuran dalam memperkemas dan memperbaiki lagi kualiti penyampaian perkhidmatan awam.

Secara keseluruhannya, jumlah penerimaan aduan bagi tahun 2009 adalah sebanyak 12,683 aduan. Ini telah menunjukkan peningkatan sebanyak 57.2% aduan berbanding dengan jumlah penerimaan aduan bagi tahun 2008. Dari jumlah tersebut, BPA telah menyelesaikan sebanyak 12,376 (97.6%) aduan dengan kerjasama agensi-agensi kerajaan berbanding 7,308 aduan pada tahun 2008.

Perkara penting yang perlu diambil perhatian adalah inisiatif-inisiatif yang dilaksanakan oleh agensi-agensi kerajaan dalam menyelesaikan setiap aduan yang diterima. Perkhidmatan mereka semua adalah wajar dipuji kerana mengambil pendekatan yang positif dalam menyelesaikan kebanyakan aduan dalam jangka masa yang munasabah.

Tahun 2009 merupakan tahun yang cemerlang kepada BPA kerana telah diberikan pelbagai amanah dalam usaha memperbaiki kualiti pengurusan aduan awam. Di antaranya ialah, memperkasakan pengurusan aduan awam di kalangan Pihak Berkuasa Tempatan (PBT). Sebagai contoh, BPA telah menjalankan kerjasama strategik dengan pihak akhbar *The Sun* dan Institut Tadbiran Awam Negara (INTAN) dalam usaha untuk membantu Dewan Bandaraya Kuala Lumpur (DBKL) dalam meningkatkan sistem pengurusan aduan awamnya. Kemuncak kepada kerjasama ini adalah penubuhan Pusat Panggilan Setempat DBKL yang dilancarkan oleh Ketua Setiausaha Negara pada 4 Januari 2010. Penubuhannya merupakan satu lagi bukti dan komitmen bahawa Kerajaan semakin serius dalam usaha untuk mempertingkatkan kualiti sistem penyampaian perkhidmatan awam.

Akhir kata, saya mengucapkan terima kasih kepada Pengerusi dan Ahli-Ahli Jawatankuasa Tetap Pengaduan Awam (JKTPA), Lembaga Penasihat BPA, semua Ketua Setiausaha Kementerian serta Ketua-ketua Jabatan dan Agensi di peringkat Persekutuan dan Negeri di atas jalinan kerjasama yang baik serta sokongan dan semangat yang diberikan kepada BPA dalam mengurus dan menyelesaikan aduan awam dengan lebih sempurna dan berkesan.

DATO' DR. TAM WENG WAH

FOREWORD BY THE DIRECTOR-GENERAL OF PUBLIC COMPLAINTS BUREAU

Warm Greetings and Salam 1 Malaysia,

I would like to express my sincere thanks and appreciation to all civil servants for the high level of commitment shown in the management of public complaints within their respective agencies. This effort certainly reflects favourably of our response towards achieving the Government's aspiration of "1 Malaysia, People First, Performance Now".

The increase in the number of complaints received against the civil service should be viewed positively. The people have a very high expectation of PCB and they always expect to receive the best resolution arising from their complaints. To realise these aspirations, it is the responsibility of each agency to demonstrate an open attitude in receiving feedback from the public. At the same time, each response or feedback can serve as the yard stick for streamlining and improving the quality of public service delivery.

In 2009, the total number of complaints received was 12,683. There was an increase of 57.2% as compared to the number of complaints received in the 2008. Of that total, with the excellent cooperation from the government agencies involved, PCB managed to resolve 12,376 or 97.6% of the complaints as compared to only 7,308 complaints in 2008.

An important aspect that needs to be highlighted is the initiatives undertaken by government agencies to resolve each of the complaints received. All agencies should be highly commended for the positive approach taken in resolving majority of the complaints within a reasonable time frame.

The year 2009 was a year of excellence for PCB as it was entrusted with the responsibility of improving the quality of public complaints management. Among these was the initiative undertaken to strengthen the management of public complaints in the local authorities. For example, a strategic partnership was formed between PCB, the Sun and the National Institute of Public Administration (INTAN) in an effort to enhance the complaints management system in the Kuala Lumpur City Hall (DBKL). The highlight of this strategic collaboration was the establishment of the DBKL One Stop Call Centre which was officially launched by the Chief Secretary to the Government on 4 January 2010. The establishment of this call centre is a reflection of the increasing seriousness and commitment given by the Government in its effort to enhance the quality of public service delivery.

Finally, I would like to express my deepest gratitude and sincere appreciation to the Chairman and Members of the Permanent Committee on Public Complaints (PCPC), the PCB Advisory Board, all Secretaries General of the Ministries as well as Heads of Departments and Agencies at Federal and State levels for the excellent cooperation and support given to PCB in its effort to manage and resolve public complaints in a more comprehensive and effective manner.

BPA SELAYANG PANDANG

Matlamat penubuhan sesuatu agensi awam adalah bertujuan melaksanakan dasar-dasar yang Kerajaan telah tetapkan. Demikian jugalah penubuhan Biro Pengaduan Awam (BPA) pada 23 Julai 1971, menjadikan ia sebagai badan pengawas aduan bagi menjamin pentadbiran yang cekap dan adil, dengan memberi maklum balas kepada Kerajaan dengan peranan yang berbentuk:

- Menjadi penghubung antara Kerajaan dengan rakyat; dan
- Bertindak sebagai saluran yang membolehkan orang ramai mengemukakan kesulitan mereka semasa berurusan untuk mendapatkan perkhidmatan dari agensi kerajaan atau pengaduan terhadap sesuatu tindakan pentadbiran kerajaan yang dirasakan tidak adil.

Bermula dari itu, Kerajaan secara berterusan berusaha memantapkan peranan dan tanggungjawab BPA serta agensi-agensi awam sejajar dengan peredaran masa. Kerajaan telah mengambil beberapa pendekatan, termasuk mengeluarkan Pekeliling Kemajuan Pentadbiran Awam (PKPA) Bilangan 1 Tahun 2009: Penambahbaikan Proses Pengurusan Aduan Awam bagi menggantikan Pekeliling Kemajuan Pentadbiran Awam Bilangan 4 Tahun 1992.

PCB AT A GLANCE

The purpose of establishing any public agency is to implement policies stipulated by the Government. Similarly, the Public Complaints Bureau (PCB) was established on 23 July 1971 as a monitoring body to ensure an efficient and just administration, by providing feedback to the Government in its role as:

- *A liaison between the Government and the public; and*
- *A channel for the public to forward their grievances regarding the services rendered by government agencies or to complain about unfair administrative actions.*

Since then, the Government continuously consolidated the roles and responsibilities of PCB and public agencies in line with changing demands. In this regard, the Government had adopted several measures, including the introduction of the Development Administration Circular (DAC) No. 1 of 2009: Improvement of Public Complaints Management Process to replace the Development Administration Circular No. 4 of 1992.

Dengan berkuat kuasanya pekeliling ini, tempoh penyelesaian aduan telah dikurangkan daripada 41 hari kepada 15 hari dan semua jabatan/agensi hendaklah:

- Memberi perhatian sewajarnya kepada aduan awam dan mengurusnya seperti yang telah digariskan dalam PKPA Bil. 1/2009;
- Memberi perhatian sewajarnya kepada setiap isu menyentuh pentadbirannya yang dilaporkan oleh akhbar dengan memberi kerjasama untuk diselaraskan dan dipantau oleh BPA;
- Memastikan “Pengaduan Awam” dijadikan agenda tetap dalam mesyuarat pengurusan disetiap jabatan/agensi kerajaan;
- Melantik seorang pegawai kanan bertaraf Timbalan Ketua Setiausaha/Timbalan Ketua Pengarah/Timbalan Setiausaha Kerajaan Negeri untuk memantau aduan; dan
- Melantik seorang pegawai untuk berurusan dengan BPA.

Through the enforcement of this circular, the resolution time for complaints was reduced from 41 days to 15 days and all agencies/departments were required to:

- *Give due attention to public complaints and manage the complaints accordingly as provided under the DAC No. 1/2009;*
- *Give due attention to issues raised in the media regarding their respective agencies and assist in the monitoring and coordination by PCB;*
- *Ensure that “Public Complaints” is a permanent agenda in the management meeting of every government agency;*
- *Appoint a senior officer with the rank of Deputy-Secretary General/Deputy Director-General/Deputy State Secretary to monitor complaints; and*
- *Appoint an officer to liaise with PCB.*

Pada awal penubuhannya, BPA menyediakan Peti Surat 9000 sebagai saluran aduan. Bagaimanapun, kini BPA menyediakan pelbagai saluran aduan termasuk mengemblengkan kemudahan ICT. Antara saluran utama aduan ialah melalui:

Laman Web BPA	www.pcb.gov.my
Telefon	03-8872 5777
Faks	03-8888 7778/03-8888 3748

40 | IKHTISAR PRESTASI SUMMARY OF ACHIEVEMENTS

Program Aduan Awam

Jumlah aduan yang diterima tidak penting, yang lebih diutamakan ialah berapa banyak aduan-aduan ini dapat diselesaikan serta menjangkau ekspektasi orang ramai. Sepanjang tahun 2009, BPA menerima 12,683 aduan dengan prestasi penyelesaiannya sebanyak 97.6%. BPA juga dipertanggungjawabkan menguruskan Warkah Untuk Perdana Menteri (WUPM) sehingga 23 Mac 2009 sahaja yang berjumlah 385 aduan dan semua telah diselesaikan. Walau pun pelbagai saluran aduan telah disediakan, namun orang ramai lebih selesa menggunakan laman web (41.9%) berbanding program proaktif (20.4%), surat menyurat (12.1%), bersemuka (11.8%), Program Menangani Aduan Sebelum Jadi Aduan atau MASJA (6.3%) dan telefon (5.7%).

Lokasi dan sub-budaya masyarakat secara tidak langsungnya mempengaruhi bilangan dan isu aduan yang diterima. Catatan bilangan aduan ke atas kementerian-kementerian lebih besar jumlahnya, iaitu 8,694 (68.5%) berbanding agensi-agensi negeri, hanya 3,989 (31.5%). Bagaimanapun, prestasi penyelesaiannya, agensi negeri mengatasi kementerian dengan mencapai 98.1% berbanding 97.4%.

Sungguhpun pelbagai isu yang diketengahkan orang ramai, perkara-perkara yang mendapat perhatian mereka adalah berkaitan kelewatan (33.7%), kualiti perkhidmatan (17.9%) dan tindakan tidak adil (16.5%), kegagalan penguatkuasaan (10.5%) dan yang lain-lain (10.0%). Kayu ukur dan matlamat akhir penyampaian perkhidmatan awam cemerlang ialah kepuasan rakyat. Dalam hubungan ini, Indeks Kepuasan Pelanggan ke atas pengurusan aduan yang dikendalikan BPA ialah 88.5%, iaitu gabungan kategori cemerlang (46.5%) dan baik (42.0%).

Public Complaints Programme

The number of complaints received was not the main concern as the priority was on the number of complaints resolved beyond public expectations. Throughout 2009, PCB received 12,683 complaints with 97.6% resolution. It was also responsible for handling the Letters to the Prime Minister (WUPM) until 23 March 2009, totalling 385 complaints. All of which have been resolved. Despite the various channels for complaints made available, the public were more at ease using the website (41.9%) as compared to proactive programmes (20.4%), letters (12.1%), walk-in (11.8%), MASJA (6.3%) and telephone (5.7%).

Location of communities and their sub-cultures indirectly influenced the number and nature of complaints received. The number of complaints against ministries was 8,694 (68.5%) as compared to 3,989 (31.5%) for state agencies. However, the resolution rate achieved at the state level was slightly higher (98.1%) than the ministries (97.4%).

Although numerous issues were raised by the public, matters that concerned them most were related to delays (33.7%), service quality (17.9%), unfair action (16.5%), failure of enforcement (10.5%) and others (10.0%). The ultimate goal and measure of excellent public service delivery is the satisfaction of the people. In this regard, the Customer Satisfaction Index on complaints handled by PCB was 88.5%, which was the combination of "excellent" (46.5%) and "good" (42.0%) categories.

Program Pengurusan

Program ini memberi fokus terhadap pengurusan modal insan dan sumber-sumber utama lain dalam organisasi. Pada tahun 2009, pencapaian prestasi perbelanjaan adalah sebanyak 98.4%. Di bawah program modal insan, beberapa siri latihan dalaman telah dikendalikan.

BPA turut membangunkan Sistem Pemantauan Aduan Agensi Awam Bersepadu (i-SPAAA) untuk digunapakai agensi-agensi dalam pengurusan aduan. BPA telah memilih tujuh agensi perintis dalam usaha untuk merealisasikan pelaksanaan i-SPAAA ke seluruh agensi awam. Pembangunan i-SPAAA adalah sebahagian dari inovasi yang dilaksanakan oleh Unit Teknologi Maklumat.

Dalam usaha meningkat citra BPA, jalinan kerjasama antara kementerian, agensi awam dan media diwujudkan dengan mengadakan perjumpaan berkala dan menyertai sesi wawancara menerusi saluran media massa perdana.

Management Programme

This programme focuses on the management of human capital and other major resources of the organisation. In 2009, the expenditure achieved was 98.4%. Under the human capital programme, a series of in-house trainings were conducted.

PCB also developed the Integrated Public Agency Complaints Monitoring System (i-SPAAA) to be used by agencies to manage complaints. PCB selected seven pilot agencies to initiate the implementation of i-SPAAA in all public agencies. The development of i-SPAAA is part of the innovation implemented by the Information Technology Unit.

To further enhance the image of PCB, collaborative networking with ministries, public agencies and the media were established through scheduled meetings and interview sessions with mainstream mass media.

“Kepuasan pelanggan bukan satu perkara yang mutlak, tetapi bergantung kepada interaksi, maklum balas, penghargaan dan aduan. Aduan perlu dilihat dari perspektif yang membina, positif dan profesional”

“Customer satisfaction is not an absolute scenario, but very much depends on interactions, feedback, praise and complaints. Complaints have to be looked at in a constructive, positive and professional perspective”

Pengurusan Aduan Awam

Aduan awam adalah suara rakyat yang menyentuh sesuatu peristiwa yang mereka lihat atau mereka alami tatkala berurusan dengan agensi awam. Seajar dengan gagasan “1Malaysia, Rakyat Didahulukan, Pencapaian Diutamakan”, tepat pada masanya bagi perkhidmatan awam anjakkan penyampaian perkhidmatannya dari yang berteraskan proses (*process-oriented*) kepada berorientasikan rakyat (*people-oriented*). Dalam hubungan ini, aduan menjadi input yang penting, dalam usaha meningkatkan penyampaian perkhidmatan.

Oleh yang demikian, aduan awam sewajarnya diberi perhatian oleh setiap agensi awam. Pengurusan aduan yang berkesan dapat memberi impak kepada rakyat dan Kerajaan secara lebih menyeluruh. Keupayaan agensi dalam menangani aduan-aduan secara cekap dan sistematik akan menjamin tahap kualiti dan penambahbaikan perkhidmatan yang disampaikan.

Jumlah aduan awam ke atas sesebuah agensi tidak begitu penting, apa yang patut dititikberatkan ialah keupayaan dan usaha agensi menyelesaikan aduan serta keberhasilannya demi kebaikan rakyat dan juga agensi berkenaan.

Pada keseluruhannya, BPA mendapati mana-mana agensi pelaksana dan yang berurusan dengan orang ramai berpotensi lebih banyak mendapat aduan berbanding dengan agensi-agensi lain, khususnya yang berperanan sebagai penggubal dasar sahaja dan kurang berurusan dengan orang ramai.

Public Complaints Management

Public complaints are voices of the people regarding their experiences in dealing with public agencies. It is timely for the civil service to shift from process-oriented to people-oriented service delivery, in line with the concept “1Malaysia, People First, Performance Now”. In this regard, complaints are important inputs in our effort to improve service delivery.

Therefore, all public agencies should address complaints accordingly. Effective complaints management have a more comprehensive impact on the people and the Government. The ability of agencies to deal with complaints systematically and effectively will ensure quality and improvement in service delivery.

The number of public complaints received by an agency is not as important; the emphasise should be on the ability and actions taken by the agency to resolve the complaints as well as the outcomes which benefit the people and the respective agencies.

Generally, it was found that implementing agencies and those dealing with the public have a higher tendency to receive complaints as compared to other agencies, particularly those that act as policy formulators and interact less with the public.

Lazimnya, orang ramai mengemukakan aduan kepada BPA adalah tentang perkara-perkara yang berkaitan dengan ketidakpuasan mereka terhadap sebarang tindakan pentadbiran kerajaan (termasuk agensi yang diswastakan dan institusi yang berbentuk monopoli yang membekalkan keperluan awam) yang dirasai tidak adil, tidak mematuhi undang-undang dan peraturan yang sedia ada termasuk salah laku, penyelewengan, salah guna kuasa, salah tadbir dan seumpamanya.

Bagaimanapun, perkara-perkara yang terletak di bawah bidang kuasa Suruhanjaya Pencegahan Rasuah Malaysia, Jabatan Bantuan Guaman, keputusan mahkamah, dasar-dasar kerajaan dan Jawatankuasa Kira-kira Awam adalah terkecuali daripada skop peranan BPA.

Normally, complaints submitted to PCB are about the people's dissatisfaction with government administrative actions (including privatised agencies and monopolistic institutions providing public utilities) that are deemed unjust, not in accordance with existing laws and regulations, including misdemeanour, misappropriation, abuse of power and mismanagement.

However, matters under the jurisdiction of the Malaysian Anti-Corruption Commission, Legal Aid Department, decisions of the courts, government policies and Public Accounts Committee are beyond PCB's scope of responsibilities.

46 PELAPORAN DAN ANALISIS ADUAN COMPLAINTS REPORT AND ANALYSIS

Pelaporan dan Analisis Aduan

Pada tahun 2009, BPA telah menguruskan sejumlah 12,683 aduan terhadap agensi persekutuan dan negeri. Sebanyak 12,376 (97.6%) aduan telah berjaya diselesaikan dan 307 (2.4%) aduan masih dalam tindakan agensi.

Di samping itu, BPA juga menguruskan sebanyak 1,982 aduan, yang tertunggak dari tahun-tahun sebelumnya yang dibawa ke tahun 2009. Sebanyak 1,948 (98.3%) aduan tersebut telah berjaya diselesaikan dan yang selebihnya masih memerlukan siasatan lanjut agensi.

Complaints Report and Analysis

In 2009, PCB received and investigated 12,683 complaints against federal and state agencies. A total of 12,376 (97.6%) cases were resolved while the remaining 307 (2.4%) cases are still under investigation.

In addition, PCB also handled 1,982 complaints which were backlog cases from the previous years. A total of 1,948 (98.3%) of these cases were resolved, while the remaining are still under investigation by the agencies.

PELAPORAN DAN ANALISIS ADUAN COMPLAINTS REPORT AND ANALYSIS

BPA mengklasifikasikan aduan yang telah selesai kepada dua kategori, iaitu aduan berasas atau tidak berasas yang ditentukan berdasarkan hasil siasatan dan maklum balas agensi kerajaan yang berkenaan. Aduan berasas bermaksud aduan pengadu adalah sah. Aduan tidak berasas pula bermaksud tindakan agensi adalah wajar atau mengikut ketetapan peranan dan peraturan yang berkuatkuasa atau lebih merupakan persepsi peribadi pengadu semata-mata. Sepanjang tahun 2009, jumlah aduan yang telah selesai dan didapati berasas adalah sebanyak 7,473 (60.4%), manakala jumlah aduan selesai tetapi tidak berasas adalah sebanyak 4,903 (39.6%).

PCB classifies resolved complaints into two categories, i.e. valid or not valid complaints, based on the findings and feedback from the relevant government agencies. Valid complaints are complaints that are genuine. Not valid complaints means that actions taken by the public agencies are justified or in accordance with existing rules and regulations or due to personal perception. In 2009, the number of resolved complaints that were valid was 7,473 (60.4%) while the number of resolved complaints that were not valid was 4,903 (39.6%).

Sebanyak 8,694 (68.5%) daripada 12,683 aduan yang BPA terima adalah berkaitan dengan kementerian, jabatan dan agensi persekutuan manakala selebihnya sebanyak 3,989 (31.5%) aduan adalah terhadap agensi negeri. Pada tahun 2009 ini, bilangan aduan yang BPA terima bagi agensi persekutuan dan agensi negeri masing-masing menunjukkan peningkatan sebanyak 3,085 (55.0%) dan 1,532 (62.4%) berbanding dengan tahun sebelumnya. Sungguhpun begitu, peratusan penyelesaian aduan juga turut meningkat sebanyak 7.0%. Secara keseluruhannya, sebanyak 97.6% aduan telah berjaya diselesaikan. Perbandingan jumlah aduan yang diterima dan diselesaikan bagi tahun 2008 dan 2009 ditunjukkan di bawah.

A total of 8,694 (68.5%) complaints out of 12,683 complaints received by PCB were complaints against the ministries, departments and federal agencies, while the remaining 3,989 (31.5%) were complaints against state agencies. The total number of complaints against ministries increased by 3,085 (55.0%) compared to the year 2008. The number of complaints against the state government increased by 1,532 (62.4%). Although the statistics showed an increase in the number of complaints in 2009 compared to 2008, however, the percentage of complaints resolved increased by 7.0%. In total, 97.6% of all complaints were successfully resolved. The number of complaints received and resolved for the 2008 and 2009 are shown below.

PELAPORAN DAN ANALISIS ADUAN COMPLAINTS REPORT AND ANALYSIS

Agensi Persekutuan

Dalam tahun 2009, kementerian yang mendapat aduan tertinggi ialah Kementerian Dalam Negeri (KDN) dengan jumlah 1,496 aduan dan diikuti oleh Kementerian Kewangan (794 aduan) dan Jabatan Perdana Menteri (709 aduan).

Namun begitu, kesungguhan dan kesediaan kementerian-kementerian menyelesaikan aduan terserlah memandangkan semua kementerian telah mencapai peratus penyelesaian aduan antara 92.0% hingga 100%. Disamping itu, perlu diberi perhatian bahawasanya pelanggan KDN adalah besar jumlahnya. Bagi Kementerian Kewangan pula, sebahagian besar aduan adalah terhadap syarikat-syarikat sektor swasta di bawah kawalseliannya, seperti institusi kewangan dan insurans.

BPA dengan kerjasama agensi-agensi telah berjaya menyelesaikan sebanyak 8,464 (97.4%) aduan terhadap kementerian. Bagaimanapun, didapati hanya 4,573 (54.0%) sahaja aduan yang selesai adalah berasas.

Federal Agencies

In 2009, the Ministry of Home Affairs received the highest number of complaints, i.e. 1,496 complaints, followed by the Ministry of Finance (794 complaints) and the Prime Minister's Department (709 complaints).

Nevertheless, the readiness and determination of the ministries to resolve the complaints was apparent as they were able to resolve between 92.0% to 100% of the complaints. It should also be noted that the number of customers dealing with the Ministry of Home Affairs were high. As for the Ministry of Finance, most of the complaints were against private sector companies under its purview, such as financial and insurance institutions.

With close collaboration from the agencies, PCB was able to resolved 8,464 (97.4%) complaints against the ministries. However, only 4,573 (54.0%) of the resolved complaints were valid.

Saluran Aduan

BPA menyediakan beberapa saluran bagi memudahkan orang ramai membuat aduan termasuk program proaktif. Secara keseluruhannya, saluran elektronik (e-mel dan laman web) menjadi pilihan utama orang ramai dan mengumpul sebanyak 5,318 (41.9%) aduan, manakala program proaktif adalah kedua tertinggi dengan jumlah aduan sebanyak 2,591 (20.4%). Pola saluran aduan ini tidak banyak berubah jika dibandingkan dengan tahun 2008.

Selain dari itu, mulai 10 Disember 2008, BPA juga melaksanakan program “BPA Sebagai Pengadu Proaktif” yang dipanggil “Menangani Aduan Sebelum Jadi Aduan” (MASJA). Program ini merupakan pendekatan berkonsepkan tindakan proaktif. Warga BPA bukan hanya menghadkan peranannya sebagai agensi yang menerima dan menyelesaikan aduan pelanggan semata-mata. Mereka juga memainkan peranan membangkitkan isu kepada agensi kerajaan sebelum ia menjadi aduan orang ramai. Sepanjang tahun 2009, sebanyak 804 (6.3%) aduan telah dikemukakan oleh warga BPA melalui kaedah ini. Kaedah ini dijangka dapat membantu semua pihak dalam menjaga imej perkhidmatan awam pada mata umum.

Complaints Channel

PCB provides a number of channels for the public to forward their complaints which included the proactive programmes. Generally, the electronic channel (e-mail and website), which received a total of 5,318 (41.9%) complaints, is the preferred complaints channel used by the public, while the proactive programmes is the second highest with 2,591 (20.4%) complaints. This trend for complaints channel did not differ much as compared to 2008.

Furthermore, on 10 December 2008, PCB started the “PCB as a Proactive Complainant” programme which is known as “Menangani Aduan Sebelum Jadi Aduan” (MASJA). This programme is a proactive approach whereby the staff of PCB do not only receive and resolve public complaints but they also play a role in highlighting and resolving issues before they become complaints from the public. In 2009, a total of 804 (6.3%) complaints were submitted by PCB personnel via this approach. This programme is expected to help enhance the image of the civil service amongst the public.

66 | SALURAN ADUAN COMPLAINTS CHANNEL

Kerajaan telah memperkenalkan satu nombor SMS, iaitu 15888 untuk orang ramai mendapatkan perkhidmatan SMS yang disediakan oleh agensi-agensi kerajaan. Sebelum ini agensi-agensi kerajaan menyediakan perkhidmatan SMS melalui pelbagai nombor yang berbeza. Langkah ini akan memudahkan orang ramai mengingat nombor dan dapat mengelakkan kekeliruan. Sejarar dengan ini, mulai 10 November 2009 pengadu boleh mengemukakan aduan melalui SMS kepada BPA. Walau bagaimanapun, setakat 31 Disember 2009, BPA masih belum menerima sebarang aduan melalui sumber ini.

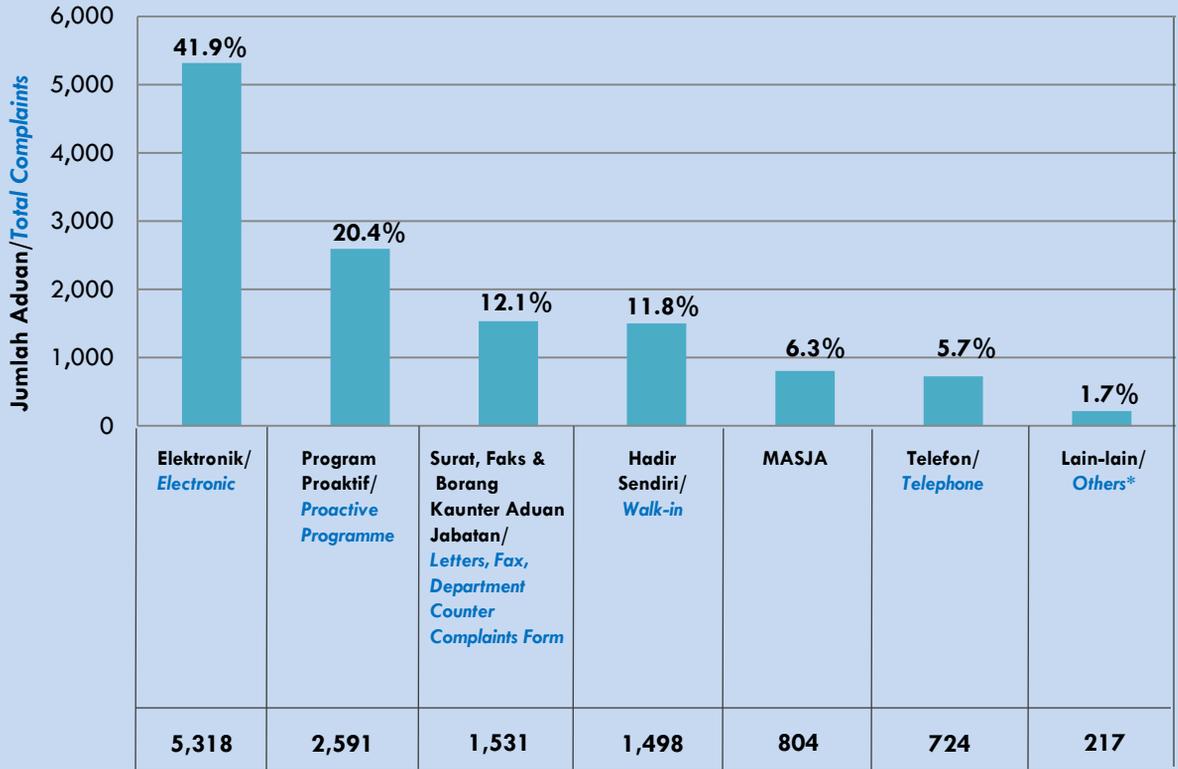

The Government has introduced a single SMS number 15888 for the public to send their complaints via SMS. Prior to this, the public agencies used different SMS numbers. This initiative makes it easier for people to remember the number and avoid confusion. In line with this initiative, beginning 10 November 2009, complainants are able to lodge a complaint with PCB via SMS. However, as of 31 December 2009, PCB did not received any complaints through this channel.

Kecewa Pejabat Tanah Cawangan Ditutup

Pengadu mendakwa sebuah Pejabat Tanah Cawangan Kecil di sebuah negeri telah ditutup pada Januari tahun 2009. Penutupan pejabat ini telah menyebabkan pelbagai kesulitan kepada masyarakat setempat. Penduduk telah memohon agar pejabat ini dibuka semula tetapi permohonan mereka tidak dilayan.

Semakan BPA mendapati aduan pengadu adalah berasas kerana penutupan pejabat tersebut sememangnya menyukarkan penduduk setempat. Lagipun, kutipan hasil tahunan pejabat tersebut didapati melebihi RM100,000. Justeru, BPA telah berbincang dengan kerajaan negeri dan menjelaskan secara terperinci keperluan untuk membuka semula pejabat tersebut. Hasilnya, kerajaan negeri telah mengambil keputusan untuk membuka semula pejabat cawangan berkenaan mulai 18 Februari 2009.

Dissatisfied with the Closure of Land Office

The complainant claimed that a branch of the land office in a state was closed in January of 2009. The closure of this office caused inconvenience to the local community. Residents requested this office to be reopened but their requests were not considered.

Investigation by PCB found that the complaint was valid because the closure caused inconvenience to the local residents. Moreover, the annual revenue collected by the land office amounted to more than RM100,000. Thus, PCB discussed with the state government and explained the need to reopen the office. As a result, the state government decided to reopen the branch office effective from 18 February 2009.

Tekanan Air Yang Rendah

Pengadu telah menghubungi BPA pada 7 Mei 2009 mengenai tekanan air yang rendah di Pekan Pahang. Sejak tahun 2008, tekanan air di kawasan Jalan Mahkota, Pekan, Pahang dilaporkan oleh sesetengah penduduk sebagai amat rendah. Penghuni-penghuni di penempatan tinggi mengalami masalah tekanan air yang serius. Malahan penghuni rumah satu tingkat juga mengalami masalah tekanan air. Kebanyakan penghuni memasang pam pada sistem paip untuk mendapatkan tekanan air yang lebih kuat. Beberapa aduan telah dibuat kepada pihak berwajib tetapi masalah tersebut terus berlarutan.

BPA telah mengadakan perbincangan dengan pihak JBA Daerah Pekan bagi menyelesaikan permasalahan tersebut. Pada 14 Mei 2009 pihak JBA Pekan telah membuat pemeriksaan ke atas kawasan yang telah mengalami tekanan air rendah tersebut. Berikutan itu, tindakan telah diambil dengan menggantikan beberapa paip lama. Pengadu telah menghantar e-mel bertarikh 22 Mei 2009 kepada BPA Pahang menyatakan rasa puas hatinya setelah mendapati masalah tekanan air di rumah beliau dapat diselesaikan.

Low Water Pressure

The complainant lodged a complaint with PCB on 7 May 2009 regarding the issue of low water pressure faced by residents around Pekan, Pahang. Since 2008, some of the residents reportedly complained of extremely low water pressure in their homes. Most of the residents resorted to installing booster pumps in the water supply system to increase water pressure. Numerous complaints were lodged with the relevant authorities but the problem persisted.

PCB held a discussion with the Pekan District Water Works Department regarding the problem. On 14 May 2009, the Pekan District Water Works Department inspected the affected areas and decided to replace the water pipes. The complainant sent an e-mail dated 22 May 2009 to PCB to convey his satisfaction and gratitude as the issue was resolved.

Kacau Ganggu Daripada Rumah Kebajikan Orang Tua Swasta Di Kulai, Johor Darul Takzim

Pengadu mendakwa sebuah rumah kebajikan orang tua swasta berkeadaan kotor dan sesak. Masalah utama di rumah kebajikan ini ialah ketiadaan penjaga yang bertanggungjawab yang menyebabkan aspek kebersihan adalah berada pada tahap yang terlalu rendah. Rumah kebajikan tersebut kini berada di bawah jagaan penjaga yang rata-ratanya belasan tahun. Penjaga-penjaga ini kemudiannya menggunakan tempat ini sebagai tempat pertemuan samseng di kawasan tersebut. Kesannya kerap berlaku pergaduhan dan kecurian di kawasan perumahan tersebut.

Semakan pengadu mendapati aduan pengadu adalah berasas. Berikutan itu, BPA telah mengadakan perbincangan dengan pihak Jabatan Kebajikan Masyarakat (JKM) negeri dan mengambil keputusan menutup Rumah Kebajikan Orang Tua tersebut. Semua penghuni telah dipindahkan ke Rumah Seri Kenangan yang merupakan salah satu institusi di bawah kendalian JKM itu sendiri demi kesejahteraan dan masa depan mereka.

Tidak Didakwa Walaupun Mengaku Pecah Rumah

Pengadu mendakwa rumah beliau telah dipecah masuk pada 17 Ogos 2008. Aduan telah dipanjangkan kepada pihak Polis DiRaja Malaysia (PDRM) dan pada 30 Oktober 2008, pihak PDRM telah memaklumkan bahawa pihak Timbalan Pendakwa Raya mengarahkan kes ini di NFA (No Further Action). Barang-barang kes telah dikembalikan kepada pengadu dan pengadu kurang berpuas hati dengan proses pendakwaan yang tidak diteruskan walaupun terdapat bahan bukti dan pengakuan oleh suspek.

BPA telah mendapatkan pandangan Jabatan Peguam Negara mengenai perkara ini. BPA berpandangan bahawa aduan pengadu ada asasnya dan meminta Jabatan Peguam Negara untuk membuka semula siasatan tersebut. Setelah kertas siasatan diteliti dan dikaji, maka pada 15 April 2009, Jabatan Peguam Negara telah mengarahkan agar Orang Kena Tuduh (OKT) Pertama dituduh di bawah Seksyen 457 Kanun Keseksaan (Pecah rumah).

Not Charged Even Though the Accused Admitted Committing the Break-in

In this case, the goods were returned to the complainant. However the complainant was not satisfied with the prosecution which did not proceed to charge the accused despite evidence and confessions by the suspect.

PCB obtained the opinion of the Attorney General on this matter and requested the Attorney General's Chambers to reopen the investigation. After the investigation papers were reviewed and examined, on 15 April 2009, the Attorney General's Chambers directed that the accused be charged under Section 457 of the Penal Code (House break-in).

Permohonan Untuk Memasang Tembok Penahan Bunyi Di Lebuhraya Damansara-Puchong

Pengadu menyatakan bahawa Lebuhraya Damansara-Puchong (LDP) merupakan salah satu lebuhraya yang mempunyai bilangan penggunaan kenderaan yang tinggi. Keadaan ini secara langsung telah menyebabkan berlaku pencemaran bunyi terutamanya di kawasan perumahan USJ17 yang terletak 100m dari lebuhraya tersebut. Kesannya, penduduk tidak dapat membuka pintu rumah mereka disebabkan bunyi bising yang sangat kuat.

BPA telah mengadakan perbincangan mengenai perkara ini dengan beberapa agensi lain, iaitu Jabatan Alam Sekitar (JAS) Selangor, Majlis Perbandaran Subang Jaya (MPSJ) dan Lembaga Lebuhraya Malaysia (LLM). Beberapa siri ujian teknikal telah diadakan oleh pihak LITRAK di bawah pengawasan LLM dan mendapati tahap kebisingan adalah masih terkawal. Walau bagaimanapun, syarikat tersebut telah menanam pokok-pokok seperti *Baphia Nithida* di had sempadan lebuhraya antara rumah-rumah yang berkenaan untuk mengurangkan masalah kebisingan.

Application to Install Sound Proof Wall in Damansara-Puchong Highway

The complainant claimed that the Damansara-Puchong Highway (LDP) is a highway with a high number of vehicles using it. This situation has directly led to noise pollution, especially in the residential area of USJ17 located 100m from the highway. Due to this, the residents could not open the doors of their houses because the area was too noisy.

PCB discussed this problem with several other agencies such as the Selangor Department of Environment (JAS), Subang Jaya Municipal Council (MPSJ) and the Malaysia Highway Authority (LLM). A series of technical tests were conducted by LITRAK under the supervision of LLM and it was found that the noise levels were still under control. However, the company planted trees such as *Baphia Nithida* at the boundary limits of the highway between the houses to help reduce the noise levels.

Hasilnya, Jabatan Pembangunan Negeri telah mengambil tindakan pemutihan di mana tindakan telah diambil ke atas pemilik gerai yang tidak berniaga, bermasalah serta gagal mematuhi peraturan-peraturan yang ditetapkan. Susulan dari aduan pengadu juga, Jabatan Pembangunan Negeri telah membina 2 unit tambahan gerai di atas tapak perniagaan.

Masalah Kuari Di Kota Malim Prima, Perak Darul Ridzuan

Pengadu tidak berpuas hati dengan operasi kuari yang dikendalikan oleh sebuah syarikat swasta. Ianya terletak hanya 30 meter dari kawasan perumahan. Syarikat tersebut hanya dibenarkan untuk melakukan aktiviti pemindahan baki batuan (stockpile) dengan kebenaran dan kawalan Pihak Berkuasa Negeri untuk tempoh 2 bulan sahaja. Tuan,

KONTRAK NO: KKM-113/2008 (185/2008) ICT, KEMENTERIAN KESIHATAN MALAYSIA

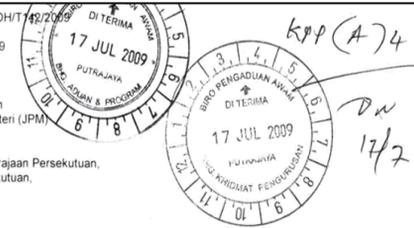

Kami ingin merakamkan setinggi-tinggi penghargaan dan mengucapkan berbanyak-banyak terima kasih kepada Biro Pengaduan Awam diatas bantuan yang diberikan untuk menyelesaikan isu kelewatan pembayaran RM2,828,805.00 kepada syarikat kami, D.G.Kom Sendirian Berhad berhubung dengan pelaksanaan kontrak yang tersebut di atas. Kami telah pun menerima keseluruhan bayarannya pada 23hb Jun 2009.

Y M Tengku Adnin dan Puan Nuraida Manan telah banyak menyumbang kepada penyelesaian ini manakala Puan Zawyah telah memainkan peranan di peringkat awal. Sesungguhnya kewujudan dan peranan Biro Pengaduan Awam amat relevan dalam usaha-usaha untuk mengatasi isu-isu tertentu yang dihadapi oleh rakyat, yang merasai hak-hak mereka tidak ditangani dengan adil oleh pihak kerajaan.

Kami akan menyediakan satu laporan berhubung dengan isu yang berbangkit ini bagi pihak berkuasa yang berkenaan mempertimbang dan seterusnya mengambil tindakan sewajarnya. Adalah harapan kami pengalaman pahit yang kami alami ini tidak akan berulang lagi di masa hadapan sesuai dengan konsep 1 Malaysia - Rakyat Didahulukan - Pencapaian Diutamakan - dan juga semoga kedudukan petunjuk Prestasi Utama (KPI - Key Performance Indicators) dan Bidang Hasil Utama (KRA - Key Result Areas) yang di laung-laungkan pengujudannya di semua kementerian dan agensi-agensi kerajaan (termasuk setiap urusan kerajaan yang dilakukan) akan dapat dipertahankan.

Adalah diharapkan pihak tuan tidak keberatan menghubungi kami jika ada perkara-perkara tambahan yang perlu di perelaskan.

Terima kasih.

Kes 47130 : Permohonan Bantuan Kebajikan [redacted]
[redacted]

Terlebih dahulu saya memohon maaf kerana kelewatan membalas surat tuan bertarikh 01.06.2009.

2. Di sini saya ingin mengucapkan ribuan terima kasih kepada BPA, khususnya BPA negeri Melaka kerana telah dapat menyelesaikan kes yang saya kemukakan. Hasil campuran BPA, permohonan bantuan kebajikan sejak 2.2.09 telahpun dapat diluluskan. Cuma agak terkilan kelulusan hanya berkuatkuasa mulai 15.07.09 iaitu setelah 5½ bulan permohonan dibuat. Bagaimanapun saya tidak mahu tergulung dikalangan mereka yang tidak tahu bersyukur, seperti kata Y.B Ar Ismail Ohman ADUN Kuala Linggi, dalam Melaka Hari Ini 17.06.09(rabu) muka 19 bahawa beliau rasa kecewa akan segelintir individu yang tidak tahu bersyukur dengan apa yang diperolehi.
3. Sehubungan dengan kelulusan ini, saya ingin mengucapkan ribuan terima kasih kepada pegawai-pegawai tuan iaitu Encik Mohd Saharil b. Hj Md Noh dan Cik Crispina bti Peter atas perkhidmatan yang diberikan.

Assalamualaikum Encik Saari,

Terima kasih diatas respon yang telah pihak tuan berikan kepada aduan yang telah pihak saya kemukakan. Sekalung penghargaan kepada pihak tuan kerana telah melaksanakan tugas dengan baik dan mengikut saluran-saluran yang telah ditetapkan.

Walaupun bagaimanapun, saya sedikit kecewa kerana tiada maklumbalas dari pihak AG kepada surat yang dimajukan oleh pihak tuan. Saya faham bahawa ianya merupakan sesuatu yang diluar kawalan dan keupayaan pihak tuan. Namun saya akan terus berusaha untuk mendapatkan penjelasan dari pihak AG tentang kes ini melalui saluran-saluran alternatif tanpa menjejaskan kredibiliti mana-mana pihak perkhidmatan awam.

Di kesempatan ini juga, saya ingin mengucapkan jutaan terima kasih kepada En Saari khasnya dan pihak BPA-JPM amnya kerana telah melaksanakan tugas yang cemerlang didalam usaha untuk menangani salah laku jabatan-jabatan perkhidmatan awam. Saya harap agar usaha murni akan diteruskan sampai bila-bila.

PEMANTAUAN ADUAN YANG KEMENTERIAN TERIMA MONITORING OF COMPLAINTS RECEIVED BY MINISTRIES

Pemantauan Aduan Yang Kementerian Terima

Mesyuarat Panel Pemantauan Penyampaian Perkhidmatan (Panel 3P) pada 5 Mei 2009 bersetuju supaya semua kementerian dan agensi kerajaan memperkasakan pengurusan aduan pelanggan. Sehubungan dengan itu, pelaporan bulanan mengenainya hendaklah disalurkan kepada Biro Pengaduan Awam mulai Mei 2009 dan disediakan laporannya untuk Mesyuarat Panel 3P.

Sepanjang tahun 2009, sebanyak 94,127 aduan telah kementerian terima dan 81,683 (86.8%) telah diselesaikan. Kementerian yang menerima aduan tertinggi adalah Kementerian Wilayah Persekutuan dan Kesejahteraan Bandar dengan sebanyak 27,622 aduan di mana 20,467 (74.1%) telah diselesaikan. Ia diikuti oleh Kementerian Dalam Negeri dengan sebanyak 17,896 aduan dan prestasi penyelesaiannya ialah 17,636 (98.6%). Berpandukan peratus penyelesaian, sebanyak 64.0% kementerian yang mencapai penyelesaian aduan melebihi 90.0% menunjukkan komitmen yang tinggi oleh agensi terhadap aduan yang diterima.

Monitoring of Complaints Received by Ministries

The Service Delivery Monitoring Panel (Panel 3P) meeting on 5 May 2009 agreed that all ministries and government agencies should strengthen the management of customer complaints. As a result of the decision, ministries were required to send monthly reports on complaints received to the Public Complaints Bureau beginning May 2009 to be reported in the 3P Panel Meeting.

In 2009, a total of 94,127 complaints were received by the ministries and 81,683 (86.8%) of these complaints were resolved. The ministry that received the most number of complaints was the Ministry of Federal Territories and Urban Wellbeing with a total of 27,622 complaints, of which 20,467 (74.1%) were resolved. This was followed by the Ministry of Home Affairs which received 17,896 complaints, of which 17,636 (98.6%) were resolved. With 64.0% of the ministries achieving complaints resolution rate of more than 90.0%, this shows that there is a high level of commitment by the agencies to resolved the complaints received.

Rangkaian Kerjasama Strategik Bersama DBKL

Cetusan idea Ketua Setiausaha Negara telah menghasilkan kerjasama strategik BPA dengan Dewan Bandaraya Kuala Lumpur (DBKL) dalam aspek pengurusan aduan. Ia berikutan peningkatan bilangan aduan yang diterima oleh agensi awam, khususnya PBT. Langkah ini merupakan satu pendekatan baru yang melibatkan kerjasama pelbagai pihak, iaitu akhbar *The Sun*, Institut Tadbiran Awam Negara (INTAN) dan DBKL sebagai PBT terpilih dan agensi perintis di bawah program ini. Antara objektif program ini bertujuan memperkasakan sistem pengurusan aduan agensi agar kualiti penyampaian perkhidmatan dapat dipertingkatkan. Selain dari itu, program ini juga untuk memenuhi kehendak dan ekspektasi pelanggan, iaitu rakyat sebagai pembayar cukai, mendapatkan perkhidmatan yang lebih baik secara berterusan selari dengan tuntutan perubahan semasa. Kerjasama ini yang telah dimulakan pada bulan Julai 2009. Beberapa siri perbincangan dan latihan telah diadakan, termasuk penyediaan prasarana bagi mengguna pakai sistem i-SPAAA di DBKL. Kemuncak pelaksanaan program ini adalah penubuhan Pusat Panggilan Setempat DBKL (Call Centre) menggunakan Talian Bebas Tol 1-800-88-3255 dan dilancar secara rasminya pada 4 Januari 2010 oleh YBhg. Tan Sri Mohd Sidek Hassan, Ketua Setiausaha Negara.

Strategic Networking with Kuala Lumpur City Hall

The strategic collaboration with Kuala Lumpur City Hall (DBKL) in terms of complaints management was the brain child of the Chief Secretary to the Government of Malaysia. This idea was mooted as the result of increasing complaints received by public agencies, particularly at the local authorities. This new approach involves the cooperation of several parties including the media, namely The Sun Daily, the National Institute of Public Administration (INTAN) and the Kuala Lumpur City Hall as the pilot agency. The objective of this programme was to strengthen the complaints management system of agencies so that the quality of service delivery can be further enhanced. In addition, this programme was designed to meet the needs and expectations of the customers, i.e. citizens and taxpayers, so that the services offered are improved continuously in line with current changes. This collaboration was initiated in July 2009 involving a series of discussions and training sessions on the implementation of i-SPAAA at the City Hall. The highlight of this initiative was the establishment of the DBKL Call Centre using a Toll Free Number 1-800-88-3255. This Call Centre was officially launched on 4 January 2010 by Tan Sri Mohd Sidek Hassan, Chief Secretary to the Government of Malaysia.

Rangkaian Kerjasama Strategik Bersama Agensi

Pengurusan aduan yang BPA kendalikan tidak mudah dilaksanakan tanpa kerjasama dan sokongan agensi-agensi awam. Oleh itu, BPA mengaturkan perjumpaan dan sesi dialog secara berkala dengan Ketua Komunikasi Korporat dan Pegawai Perhubungan Awam (PPA) kementerian, jabatan, agensi dan kerajaan negeri. Pada tahun 2009, BPA telah mengadakan sebanyak empat kali sesi dialog, iaitu pada 19 Januari, 9 Jun, 8 September dan 15 Disember. Sebelum ini perjumpaan hanya diadakan sebanyak dua kali setahun sahaja. Kekerapan perjumpaan telah ditingkatkan supaya:

- (i) memberi peluang untuk perbincangan secara terbuka terhadap permasalahan yang dihadapi oleh pegawai yang menguruskan aduan di peringkat agensi mahupun BPA; dan
- (ii) dapat berkongsi maklumat dan pengalaman untuk penambahbaikan pengurusan aduan.

Collaborative Networking with Agencies

The management of complaints by PCB cannot be easily achieved without the support and cooperation of public agencies. Therefore, PCB conducts regular meetings and dialogue sessions with Heads of Corporate Communication and Public Relations Officers from the various ministries, departments and state governments. In 2009, PCB held four dialogue sessions, i.e. 19 January, 9 June, 8 September and 15 December. Previously, only two dialogue sessions were conducted yearly. The frequency of the meetings were increased to:

- (i) provide opportunities for open discussions on problems faced by officers handling complaints in agencies or PCB; and*
- (ii) share information and experiences on improving complaints management.*

Dalam konteks pelaksanaan, BPA sebagai *lead agency* adalah bertanggungjawab mengkaji proses dan prosedur gerak kerja pengurusan aduan di agensi serta mengemukakan syor-syor penambahbaikan yang wajar. BPA telah menyediakan Sistem Pemantauan Aduan Agensi Awam Bersepadu atau i-SPAAA untuk diguna pakai oleh agensi-agensi bagi meningkatkan tahap keberkesanan pengurusan aduan, terutamanya dalam berteraskan aspek 3R, iaitu pengesanan dan tindak balas (*responding*), rekod (*recording*) dan pelaporan (*reporting*). Selain itu, dalam aspek pembangunan modal insan, pihak INTAN pula dipertanggungjawabkan untuk merangka dan melaksanakan program latihan dan kursus kepada anggota yang terlibat bersesuaian dengan fungsi dan budaya kerja agensi berkenaan.

In terms of implementation, PCB as a lead agency, is responsible for reviewing the processes and procedures within the framework of the agency which received complaints and make recommendations for improvements. PCB has developed an Integrated Public Agency Complaints Management System or i-SPAAA which is to be adopted by the selected agencies to improve the effectiveness of complaints management, especially in terms of 3R, i.e. the detection and response, recording and reporting. In addition, in terms of human resource development, INTAN is responsible for developing and implementing training programmes and courses for the staff involved in accordance with the functions and culture of each agency.

Majlis Bersama Jabatan

BPA telah menubuhkan Majlis Bersama Jabatan (MBJ) mengikut Pekeliling Perkhidmatan Bil. 2 Tahun 1992, Surat Pekeliling Perkhidmatan Bil. 3 Tahun 2002 dan Arahan Pentadbiran Pejabat Ketua Pengarah BPA Bil. 3 Tahun 2008. Sepanjang tahun 2009, BPA telah mengadakan 4 kali mesyuarat MBJ yang dipengerusikan oleh Ketua Pengarah BPA, iaitu pada 2 Mac, 25 Jun, 9 September dan 9 Disember 2009, untuk membincang dan menyelesaikan bersama pelbagai isu yang ada hubung kait dengan perjalanan organisasi.

Department Joint Council

PCB has established a Department Joint Council (MBJ) based on Service Circular No. 2 of 1992, Service Circular Letter No. 3 of 2002 and Administrative Instruction from the Office of the Director-General of PCB No. 3 of 2008. In 2009, PCB conducted four meetings which were chaired by the Director-General of the PCB, i.e. on 2 March, 25 June, 9 September and 9 December 2009, to discuss and resolve issues pertaining to the administration of the organisation.

Pembangunan Modal Insan

Falsafah “*Pembelajaran Sepanjang Hayat*” menjadi inspirasi kepada BPA dalam merencanakan pelan pembangunan latihan kepada warganya. Pembelajaran mempunyai kaitan dengan pencarian dan penggunaan ilmu pengetahuan bagi menjayakan segala usaha dalam kehidupan termasuklah menempa kejayaan bagi sesebuah organisasi. Tuntutan mencari ilmu dan usaha pembelajaran secara istiqamah, konsisten dan tekun sememangnya dituntut oleh segenap lapisan masyarakat sama ada dari aspek budaya mahupun ajaran agama.

Bagi memastikan BPA kekal relevan, mampu menghasilkan nilai tambah dan sentiasa memberikan kelainan, maka penguasaan ilmu adalah jaminan yang paling diperlukan. Melalui penguasaan ilmu dalam bidang-bidang yang berkaitan dengan teras utama, BPA akan sentiasa bersedia dan mampu untuk menangani cabaran dan harapan yang disandarkan oleh pelanggan dan *stakeholders*.

Human Capital Development

The philosophy of “Lifelong Learning” inspired PCB to formulate a training development plan for its staff. Learning is associated with seeking and applying knowledge to achieve success in life and organisational success. The need to learn and seek knowledge persistently, consistently and diligently is considered important for all people whether from the cultural or religious viewpoints.

To ensure that PCB remains relevant, value-add and makes a difference, attaining a mastery of knowledge is crucial. Through the acquisition of knowledge related to its core business, PCB is ready to face the challenges and expectations of its customers and stakeholders.

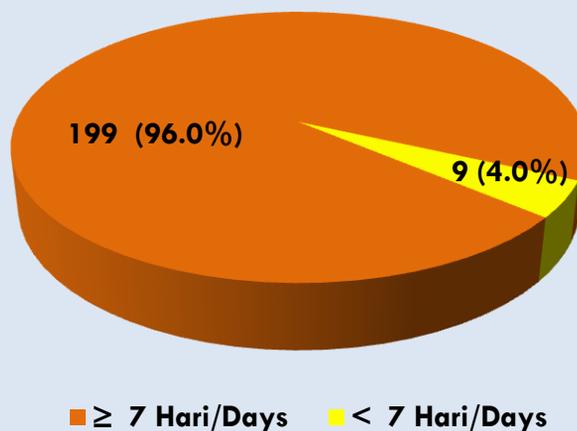

Dasar Latihan

Pekeliling Perkhidmatan Bil. 6 Tahun 2005 telah menetapkan di mana setiap anggota perkhidmatan awam perlu melengkapkan diri dengan pengetahuan, kemahiran dan sikap yang bersesuaian melalui program pembangunan sumber manusia yang terancang berteraskan pembelajaran berterusan dan pembangunan kompetensi organisasi di semua peringkat. Inovasi Teknologi Maklumat

Kepesatan pembangunan teknologi maklumat telah turut menyumbang kepada peningkatan keberkesanan pengurusan aduan awam amnya dan BPA khususnya. Atas kesedaran itu, BPA telah membangunkan Sistem Pemantauan Aduan Agensi Awam Bersepadu (i-SPAAA). Matlamat utamanya ialah untuk membantu agensi-agensi awam yang belum memiliki sistem pengurusan aduan secara *online*.

Selaras dengan itu, BPA telah mengadakan program latihan kepada wakil-wakil kementerian dan agensi-agensi serta Pejabat Setiausaha Kerajaan Negeri Kedah dan Kerajaan Negeri Perak dalam memberi kefahaman dan penggunaan i-SPAAA secara holistik. Dalam tahun 2009, sebanyak 18 taklimat dan 16 latihan yang membabitkan seramai 733 penjawat awam daripada pelbagai peringkat. Di samping itu, BPA juga mengadakan latihan khusus untuk para anggota yang baru. Sebanyak tujuh latihan diadakan yang disertai 56 anggota.

Information Technology Innovation

Rapid advancements in the innovation of information technology also contributed towards enhancing the effectiveness in the management of public complaints in general and PCB in particular. Recognising this development, PCB developed the Integrated Public Agency Complaints Monitoring System (i-SPAAA). The main purpose is to assist those public agencies which do not have their own online complaints management system.

In this regard, PCB conducted training programmes for representatives of ministries and their agencies as well as the Office of the Kedah State Secretary and the Office of the Perak State Secretary which focused on the holistic understanding and utilisation of i-SPAAA. In 2009, a total of 18 briefing sessions and 16 training programmes were conducted, involving a total of 733 civil servants from the various levels. In addition, PCB also conducted training programmes for new officers and staff. A total of seven training sessions were conducted involving 56 personnel.

Penambahbaikan Laman Web

Dalam pengurusan aduan awam secara berkesan, aspek komunikasi dengan pelanggan juga merupakan perkara penting yang perlu diberi perhatian yang sewajarnya. Dalam konteks ini, untuk mempertingkatkan dan memperluaskan penyampaian maklumat kepada rakyat, ruangan-ruangan baru seperti “Maklum Balas Media”, “Penyampaian Perkhidmatan Awam” dan “Kejayaan Penyelesaian Kes” telah diwujudkan dalam laman web BPA. Ruangan “Maklum Balas Media” adalah untuk muat naik jawapan daripada agensi-agensi kerajaan terhadap aduan atau isu yang dibangkitkan dalam media. Ruangan “Penyampaian Perkhidmatan Awam” adalah untuk artikel khas oleh Ketua Jabatan yang diterbitkan dalam media mengenai penyampaian perkhidmatan awam. Manakala ruangan “Kejayaan Penyelesaian Kes” mengetengahkan kejayaan dan penyelesaian kes-kes aduan yang dikendalikan oleh BPA untuk tatapan umum dan dikongsi dengan pelbagai pihak, termasuk rakyat jelata.

Improvement of Website

To manage public complaints effectively, communication is an important aspect that must be given due attention. In this context, to expand and enhance the dissemination of information to the public, BPA has included several new features in its website, namely “Feedback to Media”, “Public Service Delivery” and “Success Story”. To ensure wider coverage, all responses by government agencies on complaints and issues raised in the media are uploaded in the “Feedback to Media” section. Special articles written by Heads of Departments published in the media are uploaded in the section on “Public Service Delivery”. Meanwhile the “Success Story” section highlights numerous examples of complaints that were successfully resolved by PCB to be shared with the various parties and the public.

BPA Bersama Media

Sepanjang tahun 2009, BPA telah menjalankan pelbagai aktiviti promosi yang bertujuan untuk menghebahkan peranannya kepada orang ramai. PCB: SEEKING TO CORRECT AND PREVENT

The aim of the Public Complaints Bureau is to help the Government provide the best services that it can. This is a form of checks and balances for the rakyat's interests.

In a bid to improve the quality of government services, the public can take their grievances and put them to good use by lodging a complaint to the Public Complaints Bureau (PCB). As its director-general, Dr Tan Hong Weng believes, complaints are not necessarily a bad thing. Rather, he sees them as a form of feedback to keep the government departments on their toes and drive their practice to provide excellent customer services.

"Our aim is to help the Government provide the best services that it can. This is a form of checks and balances for the rakyat's interests," he said in an interview at the bureau's office at the Prime Minister's Department Complex in Putrajaya.

"Our goal is to receive second tier complaints. If the public is unhappy with the agency staff for speedy resolution, if that service cannot be provided, we will take up the matter. However, we do not take away people who come to us directly," he said.

Tan said PCB also wanted to ensure that the complainant or the public or larger one just get diverted through different departments or agencies to sort out their problems, as was the case in the past.

"People used to be given the run around. That is not good because it caused time and nothing got done. As government services improved, the time and resources used are shortened more and more," he said.

Clings the possibility of a permanent removal, which is not to take months, he said it is not different to long that time.

Integration has been progressing slowly. However, he said people are not in a hurry to sue. Rules and process also had to be in place in order to litigate.

Dr Tan said PCB key aspects in the plans to seek to prevent or correct or the complaint is to seek to look at it.

Preventive action looks into how some recurring problem can be solved so that it does not repeat.

On that note, he said, "Sometimes, we do it directly. The civil agency because it directly said on the field is under their jurisdiction. We do not want to be involved in the public. We want to be involved in the public. One of the things is to click on the button of the system. The speed here is the question. Year by year we could increase the percentage resolved."

Preventive action looks into how some recurring problem can be solved so that it does not repeat.

Respond quickly, govt agencies urged

KUALA LUMPUR: Chief Secretary to the Government Tan Sri Mohd Sidek Hassan said government agencies should give urgent attention to complaints in line with good service.

"They want urgent action. We cannot give the 'still investigating' response to their complaints. If possible, we want each complaint to be acted on in an hour or a day, not one week or one month," he said, after launching a call centre for Kuala Lumpur City Council (KLCC).

used since 2003. Mohd Sidek said the centre was a good move towards meeting the needs of clients who always wanted the best services as well as quick responses.

Kuala Lumpur Mayor Datuk Ahmad Fuad Ismail said through the call centre, complaints can be followed-up by the relevant departments or branches and complainants would be informed of actions being taken.

Better public service delivery

PUBLIC Complaints Bureau (PCB), Prime Minister's Department, would like to refer to "Discretion is the creator of problems" (CitizenNades, Oct 7).

First of all, we would like to thank theSun for covering the Public Complaints Management Seminar organised by PCB on Oct 5-6 at Putrajaya International Convention Centre. We would also like to thank you for your invaluable input on how the quality of public service delivery can be further enhanced.

Regarding the figure of 11,000 complaints a month, we would like to clarify that PCB itself received an average of 1,000 complaints a month, while the rest of the complaints were channelled by the public directly to the respective ministries, departments and agencies.

Over the years, there have been a lot of significant changes and improvements in public service delivery as a result of the various efforts and initia-

tives taken by public agencies to meet expectations and the changing needs of the people.

Among which is the implementation of the clients' charter which specifies the time taken to provide a particular service and the provision of online services to shorten the time taken by the people in their dealings with public agencies and to reduce the need for face-to-face interaction. Currently, there are 1,048 online services provided by the various public agencies.

Nevertheless, as people's expectations on public services have been growing steadily, public agencies must move forward to find more creative and innovative ways to deliver their services to the people.
